SUPPLEMENTARY INFORMATION: The Council will be holding public hearings on Draft Amendment 14 to the FMP and its draft EA. Amendment 14 includes management alternatives for regulating the fish trap fishery. Alternatives under consideration include: (1) Creation of a commercial vessel license system limiting participants in the trap fishery along with provisions for the transfer of vessel permits, (2) extending the current moratorium on the issuance of fish trap endorsements for 4 more years, (3) limiting permits to current trap fishery participants and phasing out the trap fishery after 10 years, and (4) evaluating the effectiveness of enforcement of trap rules over 2 years before taking further action. The current moratorium on new fish trap endorsements expires in February 1997. Amendment 14 also includes several alternatives related to area prohibitions on the use of fish traps including prohibiting: (1) The use of fish traps south of 24°54' N. lat. (i.e., off Dry Tortugas, FL);

(2) use of traps in the Gulf of Mexico west of Cape San Blas, FL (Appalachicola area); (3) use of traps on Riley's Hump (a 20 square mile (51 km) spawning aggregation site, south of Dry Tortugas); and (4) all fishing on Riley's Hump year round, making it a marine sanctuary. Amendment 14 would modify the provisions for tending traps and establish compliance conditions for the trap permit.

Additional management measures in Amendment 14 include: (1) Modifying the FMP framework procedure for

specifying total allowable catch by allowing the Regional Director, in addition to being able to open and close a commercial fishery, to reopen a closed commercial fishery if needed to ensure that the fishery quota is harvested; (2) modifying the transfer provisions for reef fish vessel permits (under the reef fish commercial vessel permit moratorium) to allow transfers of permits to an income qualifying operator; also allowing a vessel owner 1 year to meet the income qualifications if the permit has been issued based on income qualifications of the operator; and (3) prohibiting the harvest of Nassau grouper in the Gulf of Mexico because of resource declines.

The hearings are scheduled from 7:00 p.m. to 10:00 p.m. as follows:
